## IRS Issues Affordability Percentage Adjustment for 2021

The Internal Revenue Service (IRS) has released **Rev. Proc. 2020-36**, which contains the inflation adjusted amounts for 2021 used to determine whether employer-sponsored coverage is “affordable” for purposes of the Affordable Care Act’s (ACA) employer shared responsibility provisions and premium tax credit program. As shown in the table below, for plan years beginning in 2021, the affordability percentage for employer mandate purposes is indexed to 9.83%. Employer shared responsibility payments are also indexed.

Code Section Description	4980H(a) Coverage not offered to 95% (or all but 5) of full-time employees.	4980H(b) Coverage offered, but unaffordable or is not minimum value	36B(b)(3)(A)(i) Premium credits and affordability safe harbors.
2021	\$2,700	\$4,060	9.83%
2020	\$2,570	\$3,860	9.78%
2019	\$2,500	\$3,750	9.86%
2018	\$2,320	\$3,480	9.56%
2017	\$2,260	\$3,390	9.69%
2016	\$2,160	\$3,240	9.66%
2015	\$2,080	\$3,120	9.56%
2014**	\$2,000	\$3,000	9.50%

\*Section 4980H(a) and (b) penalties 2021 are projected.

\*\*No employer shared responsibility penalties were assessed for 2014.

Under the ACA, applicable large employers (ALEs) must offer affordable health insurance coverage to full-time employees. If the ALE does not offer affordable coverage, it may be subject

to an employer shared responsibility payment. An ALE is an employer that employed 50 or more full-time equivalent employees on average in the prior calendar year. Coverage is considered affordable if the employee’s required contribution for self-only coverage on the employer’s lowest-cost, minimum value plan does not exceed 9.83% of the employee’s household income in 2021 (prior years shown above). An ALE may rely on one or more safe harbors in determining if coverage is affordable: W-2, Rate of Pay, and Federal Poverty Level.

If the employer’s coverage is not affordable under one of the safe harbors and a full-time employee is approved for a premium tax credit for Marketplace coverage, the employer may be subject to an employer shared responsibility payment.

Note that as of January 1, 2019, the individual mandate penalty imposed on individual taxpayers for failure to have qualifying health coverage was reduced to \$0 under the Tax Cuts and Jobs Act, effectively repealing the individual mandate. Although there is currently a lawsuit challenging the constitutionality of the ACA due to this change to the individual mandate penalty, which is scheduled for oral argument before the United States Supreme Court this fall, the employer mandate has not been repealed and the IRS continues to enforce it through Letter 226J. The IRS appears to still be enforcing reporting for 2017 and has not sent letters regarding calendar year 2018 reporting at this time.

---

## Next Steps for Employers

Applicable large employers should be aware of the updated affordability percentage for plan years beginning in 2021.

Although the affordability percentage has not increased significantly from 9.78% to 9.83%, employers should consider it along with all other relevant factors when setting contributions.
